

Packaging details for Customized Blends

UN Classification: depending on blend

Available Packaging Bulk	Net Weight
Bulk	NA
Steel Drum	200 kg
4 Steel Drums on pallet	800 kg
RIBC	Depending on Blend Composition

Bulk net weight is depending on means of transport and ship to location.

Our bulk shipments could be carried by tank trucks or in bulk tank containers, both by road and rail.

Our steel drums are tested by the independent Dutch Technology Institute [TNO](#).

All our pallets are Heat Treated in line with the most recent ISPM norm of the FAO.

Our RIBC are from Schütz and are subject to their global return system i.e. TICKET SERVICE, for more info see their internet page:

http://www.schutz.com/schuetz/en/industrial_packaging/ticket_service/index.pht

All our carriers are selected and rated on their total performance and are required to have ISO 9001 and SQAS certification.
